**ARKANSAS WEDDING CAKE.**—A letter from Mount Pleasant, Arkansas, published in the Syracuse Star, gives the ingredients of a wedding cake, in that country of bears and buffaloes:—

"Mr. P. is now orphaned, and of course has liberty to marry. He, with some others of the family, attended a wedding this week, and brought home some wedding cake.—It was made of pounded corn, for flour, the ashes of bean pods for saleratus, and beans for raisins; this was wet with water and then tied up in corn husks in the shape of an hour glass and boiled; sometimes it is boiled in grape juice and eaten with a spoon made from a buffalo's horn. I once had the pleasure of eating it so at a neighbor's house."

"One of the best jokes we have heard lately is that of the fellow who was relating his escape from the whooping cough, when it was in his family."

"There were twelve of us," said he, "and the other eleven had it prime; but I got clear of it."

"But how came you to escape?" was asked.

"Why, you see," he replied, "there was so many that had it, that there wasn't whooping cough enough to go all round!"

TUESDAY JUNE 20, 1848.

BY O. F. JACKSON, 97, THAMES-ST.

ADVERTISERS will please bear in mind that the circulation of the DAILY NEWS is greater than that of any other paper published in Newport, or the combined circulation of any two papers issued from one office. As proof of this fact, the list of letters remaining in the Post Office are advertised in THIS PAPER, as BY LAW REQUIRED.

There are few kinds of business in which there is not more or less chance to cheat, and there are but few kinds of business in which these chances are not availed of, to a greater or less extent, according to the competition in the business. There is much complaint, of late, of *sanded sugar*. There is no doubt but that very much of the cheap sugar offered for sale, is, to a greater or less extent, adulterated with sand. It is said that some manufacturers mix marble dust with their loaf sugar, and that some even go so far as to mix ground glass with their sugar in such small quantities as not to be detected by the eye, but which helps to weigh, in a large quantity. Glass is a deadly poison, when taken internally, as it lacerates the stomach and alimentary passage; and gradually produces death. We advise our readers to examine sugar before using it.

The ship Margaret, Capt. Fales, which was towed to sea from this port on Saturday, bound on a whaling voyage, has left all her papers behind. The ship was twenty miles to sea before the agent made this discovery, when a whale boat, manned by six men, was sent in pursuit of her, but returned at about one o'clock on Sunday morning, without succeeding in catching the ship. Duplicate copies of her papers were immediately made out and forwarded to New Bedford, to go out in a ship that was to sail from that port yesterday, in hopes that if the Margaret does not discover her predicament and come back, that the two ships will meet at the Western Islands, and her papers put on board.

A large portion of the rock just South of the "forty steps," about three-fourths of a mile south of the beach, fell down on Sunday afternoon, with a tremendous crash. This rock is what is termed "pudding rock,"—we do not know as this is the geological name,—and the quantity which broke off is variously estimated to weigh from fifty to one hundred tons. There is a large shelf rock hanging over this place now, and people should be cautious how they visit the "forty steps."

YACHTS.—The Yacht Cornelia, Capt. Edgar; Cygnet, Capt. D. L. Soydam; and La Coquille, Capt. L. C. Jay, arrived in this harbor on Saturday evening from New York via New London. They are bound to Edgartown on a fishing excursion. At a recent Yacht regatta in New York, the Cornelia won the race.

The Hutchinson Family have been delighting large audiences in Providence, for a few evenings past, with their sweet music, and we do wish they would come to Newport and give us a chance to listen to some of their inimitable songs. We received a letter from a gentleman in New London, yesterday, begging of us to send them to that city, if they come to Newport, and if they do come here we will do what we can friend L. to induce them to visit your city.

MAN MISSING.—Sally Kinyon, the wife of John W. Kinyon, called on us yesterday and stated that her husband had been missing since about the first of January last.—They were travelling through the town of Ashford, in Connecticut, and by some means got separated, since which time she has not seen him. She heard of him on the road leading from Scituate, R. I., sometime in February looking for her, since which time she had not heard of him. He had on at the time a pair of black ribbed pantaloons, blue frock coat, the sleeves of which had been mended with black, a blue cloth cap, a blue vest, and black cravat. He was 41 years old, a little over five feet high, brown hair, large nose, and thin face. A letter addressed to the Postmaster in Wickford giving any information concerning him will be thankfully received by his anxious wife. He was subject to slight fits of derangement, when excited; his health was poor.

MR. EDITOR:—

I can well imagine myself a distant relative to that distinguished personage, the "Wandering Jew," for surely my wanderings from city to city, remind me strongly of his constant travels, although not like him, am I driven from off the face of the earth, but only on its surface.

Taking passage on board the fleet steamer "Alida" after a whole day's sail up the beautiful Hudson, I found myself, at night, at home, with that princely landlord, the younger Coleman. The next morning, having the "iron monster" for our pioneer, we went snorting, heaving, roaring, dashing, over level ground, breasting it through rocks that seemed to fly open at our approach; and anon treading gently over bridges of frame work, that seemed too frail to uphold our weight. The cars on these Western railroads, are propelled with much greater speed than with us at the east, and really the traveller almost regrets, as he is swept by scenes of the most picturesque beauty, that his gaze on their loveliness cannot be prolonged. The route of twenty miles from Troy to this little city is charming, and the scenery as premature and wild as though thousands of miles from the pale of civilization. Occasionally, sweetly nestling under the deep shade of the forest trees, are seen the humble cottages of some of the smarter and more thrifty emigrant farmers, the white dwellings contrasting effectively with the darker background. Indeed there seems to be a combination of the sublime and beautiful—the picturesque and useful—for at our left the Ulster Canal, conveying on its surface the hundreds of boats laden with the produce of the interior, gives a finish to the picture, and the whole presents a most animating and interesting spectacle.

From this place the tourist can proceed to Buffalo or Oswego, in canal packets, fitted up with every requisite to render them convenient, comfortable, and pleasant, and the route affords an opportunity of viewing the scenery of the Mohawk valley, the cascades of Little Falls, the aqueduct at Rochester across the Genesee river, the ten combined locks, and also the deep cut through the mountain ridge at Lockport.

Hoping to have the pleasure of giving you some details in regard to each of the above, at some future time, I will, for the present, spare you the infliction.

Very truly yours, ARTHUR.

SHIP OF THE LINE VERMONT.—It is supposed that this great Ship of War, which has been for so many years (some 30) boxed up at the Charlestown Navy Yard, will be got ready for launching by August or September next. A few of her timbers were found to have rotted, but generally she is in good condition. It is probable that she will not be employed in any other way than as a Receiving Ship, the expense of keeping such large ships in commission being very great.

MEXICAN ITEMS.—The Arco Iris, of Vera Cruz, is very much incensed on account of the mercy extended to Lieut. Hare and his accomplices, by Gen. Butler. The Eco del Comercio, on the contrary, applauds it as an act of clemency, creditable to the feelings of the Commander-in-chief, and expresses itself satisfied with the sense of justice evinced by the Commission in the conviction of the criminals.

The Monitor Republicano of the 27th ult., says that Lamartine had recalled the Baron de Cipro, French Minister. The same paper learns from an American officer, that during the commencement of the ensuing week, Gen. Butler would deliver possession of the city to the Mexican government.

The Zacatecano of the 15th of May, asserts most positively that Paredes has demanded a passport to leave the country; and further adds, that the nation will be benefited by his absence.

The Monitor says:—"It is said that Congress will suspend its session on Saturday, and re-open them in Mexico in July. The diligence from Queretaro, which came in on Friday, was robbed near San Juan del Rio. It had four passengers. Tranquility was entirely restored in San Luis at the last dates.

ASPARAGUS.—A correspondent of Downing's Horticulturist raises shoots of Asparagus, which he says are without exaggeration as large as his own handle, and perfectly tender and succulent, by this method:—One part hen dung to 40 parts of stable manure, are spread two inches thick in autumn, and forked in. In the spring this is turned over lightly, and a coating of a quarter of an inch of salt added. This dissolves by rain, and kills every week while it promotes a vigorous growth of Asparagus.—He cuts his Asparagus when only six inches high, above ground, and then it is perfectly tender.

COLD WATER.—The Springfield Republican mentions the case of a gentleman, who was, from a paralytic stroke, unable to walk for nine years; one of his legs and one arm being entirely useless and fleshless. Three weeks at a water cure establishment has put him on his legs again.

To enable Mankind to Die of Old Age without Disease.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Billious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a passifier of the blood; so safe, mild, and universal a remedy as these sovereign Vegetable Pills. **Phalon's Chemical Hair Invigorator.**

A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.

Naught with beauty can compare,  
With soft, glossy locks of hair;  
If not endowed with such by nature,  
Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable portion of his time for twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to exceed.

The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has feared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which from the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also impart to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair.

Invented and prepared by EDWARD PHALON, professor of Wig Making and Hair Cutting, 61 Broadway, New York.

A treatment on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff and preserving the natural beauty and softness of the hair.

**Mutual Benefit Life Insurance Co.**  
(Office No. 21 Wall-st., N. Y.)  
The Mutual Benefit Life Insurance Company, is authorized by its charter to make all and every insurance appertaining to or connected with Life risks, of whatever kind or nature, and will grant annuities and make endowments, as by the Act of Incorporation, passed the 30th January, 1845.  
The Directors of this Company, deeply impressed with the very great, useful, and growing importance to the community at large of Life Insurance, would call to attention of the public to the following observations:—1. Principles, as intended to explain to them its peculiar advantages, and the particular features of this valuable institution. It is seen above how extensive the privileges are, reaching to every risk appertaining to or connected with life; guarding and supporting infancy to old age, in all grades of professions and trades; orphans, widows and their children, by a small annual investment, on the principle of Mutual Benefit, arising from Mutual Insurance, being a self-protective society. In this there is no Money Stock; the funds or capital arise from premiums paid in when persons make insurance, and these form the means to make payments on policies, grant loans, pay expenses, and yield profits. All persons insured become members, but are not liable beyond the amount of the premiums to be paid by them. The books of the company are open to them, to see that the sums paid, or securities received, are deposited or invested according to the charter, and the net profits, at fixed periods, are divided among them, as hereafter explained. The table of figures, and the rules, are made and calculated with accuracy, after the experience and practice of old English companies, and all persons can see by them how much they have to pay, and the gains they will be likely to receive. This plan partakes of the Savings Bank and Mutual Insurance, affording the security of the one, and gain of the other, and is entirely benevolent in its operations; it also embraces a provision for Married Women to insure the lives of their husbands for any amount, the premium of which shall not exceed \$300 per annum, and is secured to them against any demands in law, or of creditors.  
The greatest portion of society, who by daily exertions in industry earn support, as artisans and mechanics, deriving livelihood from personal labor, and skill, seldom resort to Life Insurance, in any numbers, for a future provision for their families, though to none would it be so important as to them, who, by sickness and death, may in a day, leave those nearest and dearest to them in poverty. To men in mercantile pursuits and those in professional business of every rank and class, or those who have uncertain or small incomes, and who are most numerous in wealth in the aggregate, and have it in their power to provide against the vicissitudes they are constantly exposed to, Life Insurance is also of the utmost importance; they, and those in lower circumstances, are often deterred from entering into contracts of insurance, as the advantages appear remote—being contingent on death, or ability to pay the premiums.  
To assist all such, this Mutual Benefit society so arranges the payment of the premiums, and of returns, in part of the time, as to enable all persons to become members, and enjoy its advantages while living; thus protecting themselves in life, and providing for their families after their death; in this way a short life may obtain, and leave to heirs the benefit of a long one.  
This Company will grant insurances on lives, on the Mutual principle, to applicants upon their own lives, or the lives of others, for the whole duration of life, or for a limited period, at the rates specified in the tables, for sound and healthy persons.—Also, any person in sound health may insure \$500 for life upon his own or his wife's life, or the wife upon the life of her husband, of the age of thirty years, (and in like proportion for other ages), by paying 25 cents weekly, or on \$1000 by paying 50 cents weekly, the policy always remaining with the Company, with the premiums paid endorsed thereon; and in case of death they will be entitled to the amount thus insured, deducting therefrom the balance remaining of weekly payments, with interest, for the current year. No risk will be taken on a single life for more than \$5,000, until the profits of the Company amount to \$50,000, after which, according to the profits, the amount will be gradually extended to a sum not exceeding \$15,000.  
The better to enable all persons to insure, the Company will annually issue Scrip certificates, of estimated profits, bearing interest at 6 per cent.—Whenever the accumulation of net profits of the Company shall exceed the sum of \$200,000, the excess may be applied from year to year, or semi-annually thereafter, towards the redemption of each year's certificates of scrip, in whole or in part, as may be determined on by the board of directors, priority to be given to the scrip first issued. The insured may borrow from the Company on his scrip, two thirds of the amount of the same at any time, which will enable him to use a portion of his profits for the payment of his annual premium, even before the redemption of the scrip. All classes of persons will thus be admitted and enabled to meet the premiums, and have the gain of the Savings Bank, with the profit on a large business, by an actual small investment or outlay of money.  
All claims for insurance will be paid three months after satisfactory evidence of the death of the persons deceased is exhibited and approved.  
Should it any time be desirable for a person to sell his policy, where it is for life, the Company will purchase the same at an equitable rate.  
Parties insured at the table rates of premiums, are not to pass south of the Southern line of Virginia and Kentucky, or east of the Mississippi River, between the first day of June and first day of November; but can visit any part of the United States or Northern British Provinces, between the first of November and first of June. By the payment of an extra premium, insurances can be effected by persons who desire to reside South during the interdicted time.  
All persons whose lives are insured by this Company, are permitted to travel on any of the regular mail routes, (within the limits prescribed in the policy) or on any of the Northern or Upper Lakes, by steamboat or other common mode of conveyance.  
Extra hazardous risks will be taken on persons going out or residing out of the limits of the policy, and embracing all parts of the world; also on all persons going to sea, and such other risks as may be specially agreed for, being more hazardous, to be expressed in their policies. The extra premiums to be computed upon equitable principles.  
Insurances will be made on the lives of Military

and Naval Officers, off or on duty, in time of peace, the premium to be settled according to circumstances of climate, locality, &c., as they may be more or less hazardous.  
MILTON HALL, Agent for Newport.

**ATTESTED BEFORE THE MAYOR OF NEW YORK CITY.**  
*Consumption and Affection of the Litter cured of Twenty Years Standing.*  
City of New York, July 21, 1847.  
THIS is to certify that I, Nelson Larabee, of Jersey City, have for a period of twenty years been subject to a dry hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system, and have been pronounced incurably consumptive. Neither the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was yielding hopelessly to the progress of my disease, when I was persuaded to try E. W. Vandersmith's Indian Cough Balm and Lung Balm, by the aid of which all my symptoms have been removed and I have been wonderfully restored to the blessings of health and the prospect of a prolonged existence; in gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate.  
NELSON LARABEE, Jersey City.  
Sworn to before me, this 21st day of July, 1847.  
WM. V. BRADY, Mayor of the City of New York.  
P. S.—If any person wishes to see me relative to my disease, they can call on board the New Jersey Ferry Boat foot of Courtland-st., N. Y.  
**Remarkable Cure of Mrs. Fleming of Fishkill, New York.**  
New York, April 1, 1848.  
Dr. Vandersmith:—My wife has been afflicted for seven years, with an affection of the lungs, accompanied with a pain in the chest and side, difficulty in breathing, and general debility. I employed the best medical skill, and they finally pronounced her lungs diseased, and consequently despaired of effecting a cure. I was induced, by the representation of a friend, to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I sent to New York for the medicine. Before she commenced taking the medicine, she was confined to her bed; her cough was incessant. After she had taken the medicine, the third day her cough abated considerably; she expectorated a great quantity of yellow matter; her difficulty in breathing subsided. Our family physician, who formerly attended her, called to see her, and he said she was improving; and advised her to continue the medicine. Although she was much emaciated from the disease, she has been restored to health, and is as able to attend to her domestic duties as she ever was. I can with confidence recommend Dr. Vandersmith's Indian Cough Balm and Lung Balm to Consumptives.

**The Good Things of the Season, Parties, Holiday Presents, &c.**  
WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing scarcely that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.  
Western Apples from \$1 75 to \$2 12 per bbl; shell-barks \$2 per bushel; peanuts \$1 62 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 cts per pound; we sell these last named articles at wholesale prices. Prunes 20 cts per pound; grapes 25 cts; new citron 28 cts; preserved ginger \$1 12 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionary cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.  
This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.  
Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, scissors, razors, razor strops, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, comb of all kinds, cologne, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.  
New sweet cider on draught or by the barrel.  
H. H. YOUNG, South of Town Hall.  
**Mrs. Jervis' Cold Candy.**  
EVERY ingredient in Mrs. Jervis' Cold Candy is admitted good by every physician in the effect of curing colds. The scientific and happy combination of the herbs it is composed of, and the innumerable certificates that come pouring in daily, unasked, prove that Mrs. Jervis' Cold Candy stands pre eminent, as a certain cure of colds, coughs, hoarseness, sore throat, whooping cough, croup, asthma, catarrhs, palpitation of the heart, night sweats, difficult or profuse expectoration, slight bronchitis, influenza, &c., and all the affections of the lungs that lead to consumption.  
In cleansing the voice its effects are certain.

**Hyer's Pills.**  
*The American Improved Hygienic Vegetable Medicine.*  
**SAFE, CHEAP AND EFFECTIVE.**  
This medicine makes no pretensions to miraculous powers, the raising of the dead, or to influence and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.  
A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

**Goggeshall & Bliss' Patent Cooking Range.**  
THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.  
This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.  
Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.  
This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.  
The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.
